BASIC TWO-COLOR BRIOCHE

Brioche knitting is a fun method that makes a thick, squishy knit fabric worked by slipping some stitches and working others across the row. In two-color brioche, color one will be dominant on one side and color two will be doinant on the other side.

Unlike basic knitting, two passes will be done for each row of knitting, before turning work and repeating two more passes for the second row of knitting.

Materials
- **Needles:** Circular or Double-Pointed
- **Yarn:** 2 colors in weight of your choice

Stitches
- **Brioche Knit (BRK, also known as a BARK)**
  Knit the stitch (that was slipped in the previous row) together with its yarn over.
- **Brioche Purl (BRP, also known as a BURP)**
  Purl the stitch (that was slipped in the previous row) together with its yarn over.
- **Slip1 Yarn Over (SL1YO) following a BRK st**
  Bring the working yarn under the needle to the front of the work, slip the next stitch purl-wise, then bring the yarn over the needle (and over the slipped stitch) to the back, in position to work the following stitch.
- **Slip 1 Yarn Over (SL1YO) following a BRP st**
  Working yarn is already in front, slip the next stitch purl-wise, then bring the yarn over the needle (and over the slipped stitch), then to the front under the needle, into position to work the following stitch.
