

Program: SHORT ROW TECHNIQUES

Short rows may sound mysterious, but they are super easy! You work extra rows across a portion of the stitches on the needles, thereby lengthening the fabric in the area where the short rows are worked. There are three different styles that will be covered -- time permitting.

Instructor: Brenda C.

Homework: Cast on 30 stitches in your preferred weight of yarn, and knit for about 1 inch, in stockinette stitch. We will take it from there.

Supplies: Bring a few stitch markers!
