

## **Program: Concealing Color Changes without Cutting & Splicing Yarn**

**Instructor: Margot F.**

Learn how to alternate stripes of different yarn colors, without having to cut and splice yarn at color changes, by using i-cord.

**Material and Supplies:** Two colors of yarn and suitable size needles.

**Homework:** Cast on 18 stitches. Begin each row with 3 purl stitches, and then knit the remaining 15 stitches to the end of each row. Knit (in one color) until you have at least 6 rows. The resulting swatch will be mostly garter stitch, with a column of stockinette stitch on the left edge, and a column of reverse stockinette on the right edge.
